Summary

I finished my bachelor and masters in Information Technology and worked as a volunteer intern as data analyst at NAMI (National Alliance on Mental Illness) Central Iowa. Currently, I am an MS student of the Department of Computer Science at the University of South Dakota. I am also working as a Graduate Research Assistant in the Computer Science Department. I want to pursue a research and development oriented career in the field of machine learning and data science.

Research Interest

Data Science	Artificial Intelligence, Machine Learning, Image Processing, Natural Language Processing
Software Engineering	Software Process and Reliability, Empirical Software Engineering, Software Product Line
Human Computer Interaction	Information System Design, Multimedia, Speech and Vision

Education

University of South Dakota (USD)

Vermillion, SD 57069

MS IN COMPUTER SCIENCE

January 2021 - Present

- **Courses:** IOT & Security · Mathematics for Machine Learning · Seminar

Jahangirnagar University (JU)

Dhaka, Bangladesh

M.SC IN INFORMATION TECHNOLOGY

January 2016 - January 2018

- **CGPA:** 3.71/4.0, **Project:** Identify and Recognize Person Using Iris Biometric Security System [[GitHub](#)], **Advisor:** Dr. Mohammad Abu Yousuf
- **Courses:** Advanced Database System · Probability & Stochastic Process · Advanced Digital Communication · Information Systems & Securities · Client Server Technologies & Cloud Computing · Advanced Mobile & Cellular Communication Technologies · Software Project Management & Quality Assurance · Geographical Information Systems · E-Commerce & E-Governance · Computer Vision & Image Processing

Jahangirnagar University (JU)

Dhaka, Bangladesh

B.SC. IN INFORMATION TECHNOLOGY

December 2011 - December 2015

- **CGPA:** 3.58/4.0, **Thesis:** Novel Method to Assess Motion Blur Kernel Parameters and Comparative Study of Restoration Techniques Using Different Image Layouts [[Publication](#)], **Advisor:** Dr. Mohammad Abu Yousuf
- **Courses:** Data Structures · Algorithm Analysis · Digital Logic Design · Object Oriented Programming · Operating System · Computer Architecture · Wireless & Mobile Communication · Computer Network Security · Database Management System · Differential & Integral Calculus · Complex Variable & Vector Algebra · Statistical & Probability Theory · Discrete Mathematics · Computational Mathematics · Simulation & Modeling · Electronic Devices & Circuits · Information System Analysis · Computer Network & Internet Technology · Signal & System · Software Engineering · Computer Graphics · Web Technologies · Microprocessor & Interfacing · Telecommunication System · Management Information System · Introduction to Bio-informatics · Artificial Intelligence & Neural Network · Parallel & Distributed System · Multimedia System & Application · Human Computer Interfacing · Digital Image Processing & Pattern Recognition · Mobile Application Development

Professional Experience

University of South Dakota

Vermillion, SD 57069

GRADUATE RESEARCH ASSISTANT, DEPARTMENT OF COMPUTER SCIENCE

January 2021 - Present

- **Project:** Using Deep Neural Network in Chest X-ray to classify COVID-19.

NAMI (National Alliance on Mental Illness) Central Iowa

Ames, IA 50010

INTERN (VOLUNTEER), DATA ANALYST

March 2020 - November 2020

- **Responsibilities:** Interpreting data, Analyzing results using statistical training, Developing and implementing data collection systems and optimizing statistical efficiency and quality, Filtering and cleaning data by reviewing reports using Python, developing web platform with PHP and Work with management to prioritize business and information needs.

Jahangirnagar University

Dhaka, Bangladesh

RESEARCH ASSISTANT, INSTITUTE OF INFORMATION TECHNOLOGY

January 2016 - December 2017

- **Project:** Identify Fingerprint Using Minutiae Matching in Biometric Security System · This project presents a new method of identifying fingerprint in biometrics security system because fingerprint is one of the best example in biometric security and it can identify personal information and it is much secure than any other biometric identification system. The experimental result exhibits the performance of the proposed method. [[Publication](#)]

Technical Skill

Programming Language	C, C++, Java, Python, C#
Database	MySQL, Microsoft SQL Server, Oracle
Web Technologies	HTML, CSS, PHP, JavaScript
Frameworks & IDEs	Eclipse, Visual Studio, .Net, Netbeans, Matlab, PyCharm
Machine Learning	Scikit-learn, Keras
Other Software Skills	Latex, GIT, Adobe Premiere, Shell, CISCO Packet Tracer

Publications

Online Certifications

COURSES OFFERED ON [COURSERA](#)

- **Machine Learning with Python** · IBM · [[Certification](#)]
- **The Data Scientist’s Toolbox** · Johns Hopkins University · [[Continuing](#)]

SPECIALIZATION COURSES OFFERED ON [COURSERA](#)

- **Applied Data Science with Python** · University of Michigan · [[GitHub](#)]
- Introduction to Data Science in Python · [[GitHub](#)] [[Certification](#)]
- Applied Plotting, Charting & Data Representation in Python · [[GitHub](#)] [[Continuing](#)]
- **Python 3 Programming** · University of Michigan · [[GitHub](#)] [[Certification](#)]
- Python Basics · [[GitHub](#)] [[Certification](#)]
- Python Functions, Files, and Dictionaries · [[GitHub](#)] [[Certification](#)]
- Data Collection and Processing with Python · [[GitHub](#)] [[Certification](#)]
- Python Classes and Inheritance · [[GitHub](#)] [[Certification](#)]
- Python Project: pillow, tesseract, and opencv · [[GitHub](#)] [[Certification](#)]
- **Python for Everybody** · University of Michigan · [[GitHub](#)] [[Certification](#)]
- Programming for Everybody (Getting Started with Python) · [[GitHub](#)] [[Certification](#)]
- Python Data Structures · [[GitHub](#)] [[Certification](#)]
- Using Python to Access Web Data · [[GitHub](#)] [[Certification](#)]
- Using Databases with Python · [[GitHub](#)] [[Certification](#)]
- **Capstone: Retrieving, Processing, and Visualizing Data with Python** · [[Certification](#)]

COURSES OFFERED ON [GOOGLE DIGITAL GARAGE](#)

- **The Fundamental of Digital Marketing** · Google · [[Certification](#)]

Academic Projects

Identify and Recognize Person Using Iris Biometric Security System

Matlab

MASTERS PROJECT [[GITHUB](#)]

August 2016 - December 2017

- I have used automated iris recognition for personal identification to verify both uniqueness of the human iris and also its performance as a biometric based system. The performance of research was measured for stored database which is scored 0% each for False Reject Rate (FRR) and False Accept Rate (FAR) and consequently, iris recognition is shown to be a precise and reliable biometric technology.

Final Result Processing System

C#, MySQL

SEMESTER PROJECT FOR SOFTWARE ENGINEERING [[GITHUB](#)]

July 2014 - December 2014

- In this project, developed an application software in C# entitled “Final Result Processing System” which is a desktop application where the teachers can insert students databases, calculate results and Grade Point Average. The teachers could login and update the student databases and results. The mark would be calculated automatically and saved in this software for future use. The application is built through C#, MySQL and provides the flexibility to add, modify or recreate new results for students.

Library Management System

PHP, MySQL

SEMESTER PROJECT FOR DATABASE MANAGEMENT SYSTEM [[GITHUB](#)]

April 2014 - June 2014

- This is a web service based application where the list of books can be saved in the database. People can login and can read books and can also hire or purchase books. The application is built through PHP & MySQL.

Seven-Segment Display

Hardware

SEMESTER PROJECT FOR DIGITAL LOGIC DESIGN

October 2013 - December 2013

- This project was a hardware based device which is used in basic calculators, digital clocks, electronic meters and other electronic devices. This is a procedure of electronic display device for displaying decimal numerals.

Honors & Awards

- | | | |
|------|--|--------------------------|
| 2018 | University Merit Scholarship , Top 10% in Graduate Level, Jahangirnagar University | <i>Dhaka, Bangladesh</i> |
| 2016 | University Merit Scholarship , Top 20% in Undergraduate Level, Jahangirnagar University | <i>Dhaka, Bangladesh</i> |

Organizations

- | | |
|------|--|
| 2020 | Student Member , Association for Computing Machinery (ACM) |
| 2015 | Student Member , Institute of Electrical and Electronics Engineers (IEEE) |

Activities

VOLUNTEER OPPORTUNITIES

- **Mentor**, YSS (Youth Standing Strong), Ames, IA 50010. [Sept 2019 - Oct 2020]
- **Program Coordinator (Professional Activities)**, IEEE Student Branch, Jahangirnagar University, Dhaka, Bangladesh. [May 2015 - May 2016]
- **Volunteer (Technical Activities)**, International Conference on Electrical Engineering and Information & Communication Technology' 2015. [May 2015]
